

Study in Ireland 2007

YOUTH (Max 17 yrs.)

Ireland is known as an island of immense natural beauty, with a rich and diverse historical, cultural and artistic tradition. Together with a population who are friendly and fun-loving (or *good craic* as the Irish would say!), you are guaranteed to enjoy your time here. In more recent times, the Irish economy has grown rapidly and is now regarded as an excellent place to live and work for thousands of foreigners. English is the spoken language in Ireland and we make sure you meet as many Irish people as possible so you can practise what you learn in class with native speakers.

This course for young people runs from July 2nd until August 31st 2007 and is in Dublin, the capital of Ireland. Dublin has a population of over one million people and has become a lively, vibrant city with plenty to see and do.

Minimum stay: 2 weeks
